

**WHAT COULD HAPPEN...**

**...AFTER THE ACCIDENT**

*"TAKING IT TO THE STREETS"*

# **APPARATUS RESPONSE SAFETY & LIABILITY**

**March 26<sup>th</sup>, 2017 | 08:00-13:30**

**Selden FD, 44 Woodmere Pl, Selden NY**

*Sponsored By:*

*Selden FD & Coram FD*

James Juneau will be presenting. Juneau is a nationally recognized legal authority on issues relating to fire apparatus and emergency vehicle design, operational safety and the "standard of care." James is a straight-talking attorney on emergency vehicles and firefighter safety training across the United States. "We're going to talk about fire apparatus and the law," said Juneau. "We'll deal with safety issues, we'll deal with the kind of things that matter when you go to the court room and we'll talk about some of the things that can get you in trouble, like crazy driving, ignoring right-of-way intersections, railroad crossings and intoxication on the job."

- Tony Cruz from the Cancer network will open
- Tim Boel & Ryan Pietzsch from VFIS will close with a presentation about risk assessment
- Breakfast and lunch will be provided! Doors open at 7:30am
- Course Certificate upon completion.

**Fee: \$10 per student donation to the Cancer Network**
