		<i>McNeil &amp; Co.</i>	<i>Seneca River</i>	

CENTRAL REGION FIRE DISTRICTS  
ANTICIPATED SEMINAR TOPICS  
NOVEMBER 19, 2022

Fire District Officials face a wide variety of challenges – Fire District officials need to be fluent in firematic, legal, fiduciary, organizational, administrative and personnel skills, public relations, conflict resolution, leadership; and the list goes on. Added to that, laws and requirements are always in flux, changing dramatically over the years. Whether you've been a Fire District Official for one year or twenty, you will greatly benefit by expanding your knowledge base.

This program is an opportunity to increase your knowledge and assist you in your Fire District operations. There will be time for interaction during each of the presentations.

**ANTICIPATED PROGRAM SCHEDULE:**

Tim Graves – OFPC Specialist will speak about the dangers of occupational cancer for firefighters; and the reporting requirements for Fire Departments and Fire Districts

Dave Denniston – HR in the fire service – our responsibility and how to move forward

Greg Serio – Attorney – Policies and Procedures for fire districts

Let's talk about your issues and problems

Time for your questions and concerns – bring your questions; or let us know before the seminar if the issue is complicated and may need some study
